BEAUTIFULLY PERSONAL. QUIETLY POWERFUL.

Let every guest feel personally welcomed.

Your guests should feel the care behind the celebration from their very first tap. Ace Tech brings the invitation, RSVP, private details and lasting memories together in one elegant experience.

FOR THE COUPLE

A wedding home that feels unmistakably yours—your names, traditions, colours and story.

FOR THE GUESTS

One personal link, a warm welcome and no uncertainty about what to do next.

FOR THE HOSTS

Less chasing, fewer spreadsheets and a clear private view of every response and detail.

AFTER THE DAY

A beautiful digital keepsake that can be downloaded and revisited long after the celebration.

LIVE EXAMPLE // RAEES & ALISHA

Experience a working wedding website before choosing your package. The preview opens with a personalised ceremonial invitation; the walkthrough shows more of the guest and Host journey. Private guest information remains protected.

OPEN THE LIVE RAEES & ALISHA EXPERIENCE →

WATCH THE SHORT PLATFORM WALKTHROUGH →

CLASSIC: polished invitation and RSVP essentials // SIGNATURE: the recommended complete guest and Host experience // BLACK TIE: original art direction, concierge setup and a permanent downloadable archive.

Every client receives their own separate website, design and private data environment—the example is inspiration, never a copied identity.

What the complete wedding platform can include.

PERSONALISED INVITATIONS

Exact guest names, invitation code, party limit, WhatsApp-ready delivery and a custom opening animation.

SIMPLE RSVP

Accept or decline, party size and optional private message—without unnecessary email, meal or dietary forms.

PRIVATE DETAILS

Venue and time can remain hidden until a guest verifies a valid personal invitation.

HOST CONSOLE

Invitation creation, RSVP approval, response deletion, CSV exports, settings and secure Host accounts.

SEATING & CHECK-IN

Family seating assignments, table planning and wedding-day party check-in.

GUEST ALBUM

Invitation-only image and video uploads with Host approval before publication.

FAMILY EXPERIENCE

Interactive family map with search, generations, spouses, children and private correction suggestions.

PRIVACY CONTROL

Hosts choose whether private areas are visible to everyone, verified guests or Hosts only.

ONE WEBSITE. FEWER SUPPLIERS. LESS REPEATED SPEND.

Instead of paying for disconnected invitation changes, RSVP software, extra information cards, guest-list chasing, seating tools, check-in tools, a guest-upload service and repeated update messages, one private platform brings the work together. One update reaches everyone; one dashboard keeps the hosts in control.

WHAT IT CAN REDUCE OR REMOVE: printing and reprinting, delivery costs, separate form or gallery subscriptions, spreadsheet administration, repetitive WhatsApp replies, manual RSVP follow-ups and paid coordinator hours spent on routine guest communication.

BETTER USE OF PROFESSIONALS: the platform does not replace the creative value of a photographer or the supplier expertise of a full wedding planner. It lets the photographer focus on beautiful coverage and the planner focus on the event—not links, lists and repeated questions. Couples who prefer to self-manage can use the Host Console instead of paying for additional guest-admin support.

VALUE AFTER THE WEDDING: approved memories, the couple's story and the finished experience remain together, with archive options that avoid starting from zero after the celebration. Actual savings depend on the wedding scope and services selected.

Final functionality is confirmed during discovery. Features outside the selected package are quoted before work begins.

Choose how much of the experience you would like us to carry.

All pricing is in South African rand. The Signature Celebration is recommended for a fully customised private wedding.

RECOMMENDED // SIGNATURE CELEBRATION

The couple’s favourite balance: fully custom design, effortless guest communication and all the Host controls that remove unnecessary wedding admin.

Classic Elegance

A graceful digital invitation and RSVP experience with everything needed to welcome guests beautifully.

CORE EXPERIENCE

R 5,500

Classic Elegance

A refined beginning for couples who want the essentials to feel polished, personal and easy.

- ▶ Tailored colour, typography and couple details using one established design direction
- ▶ Personalised invitation links with names, codes and party limits
- ▶ Wedding details, proceedings and privacy-aware venue information
- ▶ Guest RSVP and core Host response management
- ▶ Simple guest demo video showing how to open the invitation and submit an RSVP
- ▶ Up to 100 invited guests and 2 GB guest media storage
- ▶ Six months of hosting, SSL and standard support
- ▶ Two consolidated design revision rounds

Best for: intimate weddings, Nikah-only events and couples who need a professional digital alternative to forms and static invitation images.

Signature Celebration

A fully customised celebration experience designed to delight guests and lighten the couple's planning load.

MOST POPULAR

R 9,500

Signature Celebration

Created around the couple's identity, with the thoughtful details that make guests feel considered from invitation to wedding day.

- ▶ Custom visual direction across the invitation, public pages and Host Console
- ▶ Personalised WhatsApp-ready invitations and custom opening experience
- ▶ Complete RSVP approval, guest messages and page-specific CSV exports
- ▶ Simple customised guest demo video covering invitations, RSVP and key guest features
- ▶ Proceedings, private venue details, family seating and day-of check-in
- ▶ Moderated guest photo/video album with 10 GB storage
- ▶ Interactive family map with search, zoom, relationships and suggestions
- ▶ Up to 250 invited guests and authorised Host accounts
- ▶ Twelve months of hosting, three revision rounds and 30-day launch support

PRIVATE CLIENT BONUS

Ace Tech will include the first downloadable post-wedding archive and a custom RA-style couple monogram at no additional charge.

Black Tie Experience

For couples who want a distinctive, high-touch digital celebration with concierge implementation and a keepsake to keep forever.

CONCIERGE BUILD

R 14,000

Black Tie Experience

Our most complete experience: original creative direction, concierge preparation and a permanent downloadable keepsake after the wedding.

- ▶ Original design concept and advanced interaction direction
- ▶ Concierge guest-list import and invitation configuration
- ▶ Customised guest demo video plus a separate Host handover walkthrough video
- ▶ Up to 500 invited guests and a 30 GB media archive during the included hosting period
- ▶ Custom domain setup; first-year domain registration allowance up to R500
- ▶ Advanced planner/Host onboarding and rehearsal session
- ▶ Remote wedding-day technical support window
- ▶ Five consolidated design revision rounds
- ▶ Forever Download: the complete archive, including up to 30 GB of media, supplied as a downloadable copy to keep indefinitely
- ▶ Sixty-day priority post-event support and archive handover assistance

EARLY-BIRD BLACK TIE // R 12,500

Save R 1,500 when the signed agreement and booking deposit are received at least six calendar months before the confirmed wedding date. Subject to production availability and the scope remaining within the Black Tie package.

* Standard Black Tie price is R 14,000. Physical event staffing, travel, paid messaging, ticketing, livestreaming and third-party licences are not included unless specifically added to the quotation.

Build the exact service level required.

Add-ons may be selected before production or approved later through a written change request.

Custom domain setup	R 650	Configuration and launch support. Domain registration/renewal charged at cost beyond any package allowance.
Additional event or celebration day	R 1,500	A separate event page, schedule and venue block for multi-day celebrations.
Guest list preparation and import	R 850	Cleanup and structured import of a supplied spreadsheet, up to 300 households.
Additional 5 GB media storage	R 450	Added storage allocation for the active hosting period.
Additional design revision round	R 750	One consolidated revision after the included rounds are complete.
On-site check-in support	From R 3,500	Durban-area attendance support. Travel, accommodation and extra devices quoted separately.
Digital archive renewal	R 650 / year	Optional continued online archive after included hosting ends; subject to standard storage limits. The Black Tie downloadable archive remains the client's to keep forever without renewal.
Rush build / compressed lead time	+25%	Applies when booking fewer than six weeks before the wedding or where launch is required in fewer than 10 business days. Feasibility depends on scope and complete, approved content.
WhatsApp Business API integration	Quoted separately	Meta template approval, conversation fees and third-party provider costs are excluded.
Additional bespoke functionality	R 950 / hour	Used only after a written estimate and client approval.

A calm, guided journey from first conversation to guest launch.

01	DISCOVERY	Wedding style, cultural requirements, guest journey, privacy needs and package selection.
02	CONTENT	Client supplies approved wording, event details, guest list, photographs and family information.
03	DESIGN	Ace Tech presents the chosen direction and applies consolidated revision feedback.
04	CONFIGURE	Invitations, Hosts, RSVP, proceedings, privacy, seating and media settings are prepared.
05	TEST	Mobile, desktop, invitation, RSVP, access and export workflows are tested before approval.
06	LAUNCH	The wedding site goes live and invitation links are released to guests.

ESTIMATED DELIVERY

Classic: 1-2 weeks Signature: 2-3 weeks Black Tie: 3-4 weeks

Timelines begin only after the deposit, discovery and all minimum required content are received. Client approval delays, new scope and third-party delays extend the delivery date accordingly.

PLANNING BUFFER: Reserve the project 8-12 weeks before the wedding. A standard build should kick off no later than 6 weeks before the wedding, with target public launch 2-3 weeks before the event. Bookings inside the six-week window are treated as rush work and attract the stated surcharge, subject to availability.

Clear promises create a confident beginning.

PAYMENT	50% booking deposit is payable to reserve production capacity. The remaining 50% is payable after final client approval and before the website is made publicly accessible or guest invitations are released. Ace Tech is not obliged to launch until cleared payment is received.
EARLY BIRD	The Black Tie early-bird package price is R 12,500, a saving of R 1,500 from the R 14,000 standard price. Eligibility requires the signed agreement and cleared 50% booking deposit to be received at least six calendar months before the confirmed wedding date. The wedding date must be disclosed before acceptance. The offer cannot be combined with another discount and excludes add-ons, rush fees and third-party costs.
CURRENCY	All prices are in ZAR. VAT, if legally applicable, will be shown on the invoice.
CONTENT	The client supplies accurate names, dates, venue details, photographs and guest information with permission to use them.
REVISIONS	A revision round is one consolidated written feedback submission. New scope is quoted separately.
CANCELLATION	If the client cancels before public launch, Ace Tech may retain 50% of the booking deposit (equal to 25% of the total package price) and all approved third-party costs; the balance of the deposit will be refunded. Once the website has launched or invitation links have been released, 100% of the booking deposit is earned and non-refundable. Any delivered work, approved variations and third-party costs remain payable.
NON-DELIVERY	If Ace Tech fails to deliver the agreed core website by the written contractual delivery date, the booking deposit will be refunded, provided the failure was not caused by client delay, incomplete or late content, approval delays, requested variations, third-party service failure, force majeure or another circumstance beyond Ace Tech's reasonable control.

Delivery, privacy and ownership protections.

RUSH & BUFFER	Standard projects should be reserved 8-12 weeks before the wedding and commence no later than 6 weeks before it. A shorter lead time or launch required in fewer than 10 business days is rush work, subject to availability and a 25% surcharge unless a different written fee is agreed.
PRIVACY	Ace Tech will use reasonable technical safeguards. The client controls guest-list accuracy, consent and authorised Host access.
THIRD PARTIES	Domain, payment, Meta/WhatsApp, SMS and other provider fees are excluded unless explicitly stated.
OWNERSHIP	The client owns supplied content and exported event data. Ace Tech retains its platform, reusable components and underlying source code.
FOREVER DOWNLOAD	Black Tie includes a downloadable post-wedding archive containing the completed website and up to 30 GB of included media. Once supplied, the client may download, copy and retain that archive indefinitely. This forever benefit applies to the downloadable copy only and does not include perpetual online storage, domain renewal or permanent hosting. The client is responsible for keeping backup copies after handover.
ARCHIVE	Black Tie includes 18 months of online hosting. Its 30 GB allocation applies during that included hosting period and is then supplied as part of the downloadable archive. After included hosting ends, any continued online availability is optional and subject to the applicable renewal fee, storage limits and third-party service availability.

BINDING ACCEPTANCE

These commercial terms, the accepted proposal, the final statement of work and the invoice together form the agreement between the client and Ace Tech. By signing below or paying the booking deposit, the client confirms acceptance and intends to be legally bound. If documents conflict, the signed statement of work takes priority. Nothing in these terms excludes rights that cannot lawfully be excluded under South African law.

Let's make the first moment feel unforgettable.

Recommended selection: Signature Celebration

Early-bird Black Tie: R 12,500 when booked 6+ months before the wedding.

TO RESERVE THE PROJECT

1. Confirm the preferred package and optional upgrades.
2. Approve the final statement of work.
3. Pay the 50% booking deposit.
4. Schedule the private discovery session.
